Home Is The Artist©

Home Is The Artist is a daylight photo studio and event space, a creative haven where ideas come to life. Founded in 2021 by designer Sigrid as her graduation project, the studio began as a search for the contemporary creative office. With a deep love for design, collaboration, hospitality, and midcentury interiors, we transformed a once-deserted building into a welcoming, light-filled space for creatives, brands and entrepreneurs.

Known for its industrial character, ideal natural light, and ever-changing vintage design interior (all sourced secondhand and shared through a growing community) the studio feels as personal as it is professional. The name, a playful take on “Home Is Where The Heart Is,” reflects its foundation: comfort, safety, and freedom. Home Is The Artist offers more than a location, it offers a feeling. A place to feel at ease, feel inspired, and feel at Home.

Nowadays, Iris & Sigrid run the studio together. Strengthening powers as photographer and designer for a full-service experience. We are looking forward to welcoming you!
